Re: **Letter of Appreciation - Directorate for Special Technical Support of Investigations
Technical Support Unit**

Dear Sir,

I would like to take this opportunity of thanking you for the assistance of Kosovo Police Technical Support Unit. During the past few months they have showed absolute professionalism and dedication to duty. In a very sensitive investigation where we were carrying out enquiries into Nuhi Uka the former President of the Municipal Court of Pristina they have showed themselves to be first class investigators. They installed a listening device in a very professional manner and then monitored the product providing the audio data to my investigators. Their ability to carry out the role has impressed my officers who have been brought together from twenty different countries. I hope we can work together with this team in the near future.

Kind Regards,

Alan EDWARDS
Chief of Organized Crime Investigation Unit
Executive Criminal Investigations Department, EULEX
